1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Wilson on 08 July 2004.

The application has been amended as follows:

Cancel claims 27 and 28.

#### ***Allowable Subject Matter***

2. Claims 1-14 and 29-31 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "said plurality of EH gratings including EH gratings with different center wavelengths and EH gratings with the same center wavelengths" as set forth in the claimed combination. Claims 2-14 are allowable based upon their dependence on claim 1.

Claims 29, 30 and 31 are allowable for the reasons given in the previous office action.

The prior art of record, DeVre et al teaches a tunable optical filter comprising a plurality of electroholographic (EH) gratings, the EH gratings being optically connected such that an input optical signal can pass through at least one of the gratings, wherein

said gratings are activated to filter the input optical signal in response to an applied voltage. However, the prior art does not teach that the plurality of EH gratings including EH gratings with different center wavelengths and EH gratings with the same center wavelengths and there is no motivation or teaching to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
